

# Feeds in IS1

11/13/2023 2:36 pm EST

A feed is a publication or group of publications to which engagement questions are published. They normally represent topics such as Finance, Food, Health, News, Parenting, Politics, Religion, Science, Shopping, Sports, Technology, Travel, and Weather. Sometimes they represent a geographic grouping such as Pittsburgh or Texas. The evergreen feed is for very general questions that are appropriate on any site.
